

Derenzo Phantom iCheckRotations.ipynb

Bill Worstell

PicoRad->MGH

1/16/2024

Table of contents

Insert phantom into source volume,
with Rotation= $[\pi/4, 5*(\pi/180), 0]$,
Translation= $[0, 0, 0]$

Insert phantom into source volume,
with Rotation= $[0, 90(\pi/180), 0(\pi/180)]$,
Translation= $[0, 0, 0]$

Insert phantom into source volume,
with Rotation=
 $[\pi/2, 90(\pi/180), 90(\pi/180)]$,
Translation= $[0, 0, 0]$

Insert phantom into source volume,
with Rotation= $[0, 45*(\pi/180), 0]$,
Translation= $[0, 0, 0]$

Insert phantom into source volume,
with Rotation=
 $[0, 45(\pi/180), 90(\pi/180)]$, Translation=
 $[0, 0, 0]$

**Insert phantom into source volume,
with Rotation=
 $[90(\pi/180), 45(\pi/180), 90*(\pi/180)]$,
Translation= $[0, 0, 0]$**
